

Galen University Summer Intensive Animal Science Pre-Vet Program, 2012

JUNE 4 - JUNE 30

Exploring Animal Health and Diseases in Belize

This course is designed for the pre-veterinary, veterinary, animal science or zoology student to gain working knowledge of the husbandry, and health issues confronting horses and cattle (beef and dairy) in Belize. The course is introductory but intense with laxity intentionally built into the schedule to accommodate individual interests of the students taking the course. Classroom sessions on anatomy, physiology and pathology lay the foundation of knowledge needed to confront animal husbandry and disease issues. Additionally, veterinary care such as preventive medicine, reproductive management, medicine and surgery will be observed. Externships will provide students with hands-on experience and problem-solving skills that will assist them while developing careers related to animal health. This course carries a value of three credit hours

Wildlife of Belize

This course is designed for the pre-veterinary, veterinary, animal science or zoology student to gain working knowledge of habitat, reproductive and health issues confronting zoo and wildlife animals in Belize. Classroom sessions on diversity of fauna of Belize, ecology, animal behavior, anatomy, physiology and pathology lay the foundation of knowledge needed to confront habitat, reproductive and zoonotic disease issues.

Each of the off campus experiences will provide students with general knowledge of exotic animals. Additionally, veterinary care such as preventive wildlife medicine, re-productive management, zoo animal medicine and surgery will be observed. This course carries a value of three credit hours

Animal Science - Pre-vet Program Details

JUNE 4 - JUNE 30

Program Fees and Housing

Our Animal Science Program is comprehensive, hands-on and are a great value for the field experience. The courses run in four week sessions, Monday through Friday, 9 am to 5 pm. Students work in the field with domestic and farm animals, interact with wildlife at the Belize Zoo and study on our campus, which is located in western Belize. In addition to a well rounded field and classroom experience, students will have free time on weekends for independent travel and excursions. **The Galen University Animal Science Program is the only University Accredited Program offered in Belize.**

Summer 2012 Fees

The program fee for summer 2012 is **\$3,900**; it includes tuition for six credit hours, orientation, field fees, housing, ground transportation to and from the airport on group arrival and departure days, transportation to and from field and campus. It also includes breakfast and lunch on weekdays.
