Intern In Costa Rica

San Jose. If you have read any of the many guidebooks on Costa Rica, then you are probably aware that Costa Rica is a diplomatic, peaceful country with NO standing military. Driving around, you will notice that agriculture is the basis of Costa Rican economy. Costa Rica has been fortunate to have never had a single war or major political turmoil. It is considered by many political experts to be the most stable country in Central America and among the elite of Latin America. An impressive public health care system and strong emphasis on education (Costa Rica is the most literate of all Latino countries) have resulted in a happy, affluent culture.

Note: The dry season is November to April; rainy season is May to October.
