ABOUT

Global Nomadic

Global Nomadic is a company born from witnessing the mistakes and often greed of other Volunteer & Gap Year companies.

We specialize in providing unique and exclusive volunteer projects, and professional Careerships designed to further career prospects.

Its founder Jeremy Freedman has travelled widely in search of International Development work and adventures throughout Africa, Asia and South America; the hard way. After knocking on many doors, and successfully working for various local NGO's, he realized that he could help others like him. Those looking to get a foot in the door to the industry they crave, but finding themselves knocking their heads against many walls in the process.

We seek to be different by putting you directly in touch with the Project Provider of your choice, adding ZERO commission to the price of the project. You will pay the same wholesale price as if you approached them directly.

We ask instead for a placement fee to cover the costs of our services, offering full pre-departure support and ongoing assistance to you during your trip. We also offer a range of discounts with our partners on flights, travel insurance and other necessities for your trip.

All of our projects have been carefully and thoroughly vetted, often by a member of our team going to visit the country, interview the staff and current volunteers/interns, to ensure your stay will be safe, valuable and enriching. We have specially chosen worthwhile projects run by reputable and worthy people and organisations.

Please do not hesitate to contact us with any questions or request a free call back. You can register for free on our site to keep up to date with all new placements as and when they are uploaded.

If the placement you need is not listed, we can help you find it using our bespoke service. Contact us to find out more.

We look forward to hearing from you and helping you find your ideal placement.
