7 Reasons to Join Hess in Taiwan

We're about to tell you seven reasons why choosing to teach English at Hess Educational Organization in Taiwan in August is one of the smartest moves you can make.

August Airfares

If you come and join our team in August, you will be reimbursed up to NT\$25,000 (approx. US\$750) of your airfare costs. This can be any ticket, including stopovers on the way to Taiwan. You receive this reimbursement after your third month in Taiwan (in your November pay).

Interest-Free Setup Loan

You can take the option of loaning up to **NT\$30,000 (approx. US\$900) interest free** from Hess to help you with your initial setup costs in Taiwan. This money is **immediately available** upon arriving at the school, so you can use it to pay for the bond or deposit on your new accommodation, furniture or any of the other costs of getting started in a new country. Or it can cover your first month of living expenses until you get your first big pay.

You can pay this loan back over six months with a NT\$5,000 deduction from your NT\$45,000-70,000 per month income, or you can pay it off at any time earlier as you see fit.

Free Comprehensive TEFL Training

You will be **thoroughly trained** in teaching before you ever set foot in the classroom. Our **Initial TEFL Training program** covers teaching methods and all of our curriculum, and detailed and supportive feedback on your teaching demonstrations. It's also a big training, with 40 or more teachers just like you, allowing you to quickly build a new social network in Taiwan. This is followed by **Arrival Training** at each school, where you can become more familiar with the specific classes you will be teaching.

You also get additional support at our **1-Month, 3-Month, 6-Month and 9-Month trainings**, where you are trained in more advanced methods and techniques that become more applicable as you gain more experience with students in the classroom. And at the end of your first year, you **gain a Hess TEFL Certificate** that reflects your development and teaching experience.

You're in good hands with your trainers, who are professionals each with thousands of hours of teaching experience and qualifications including TEFL, CELTA and teaching degrees.

Western Management

You are supervised by a **trained manager** known as a **Head Native-Speaking Teacher** - someone who teaches just like you, but also looks after you at a professional level in the school. As an **experienced teacher**, they help you with any problems you encounter in class; as an **experienced resident** in Taiwan, they can also show you places to eat, explore and find entertainment - and, with the other teachers at your school, they may become close friends for life.

Some of the things this person will help you with include:

- **finding your new accommodation**
- **train you one-on-one in any areas you need help in**
- **regularly giving you feedback about your teaching**
- **being the first point of contact for anything to do with teaching or Taiwan**

Curriculum Provided For Every Lesson

You will find it very **easy to prepare** for teaching your classes thanks to the curriculum and teaching guides provided by our award-winning **Educational Research Department**.

Every lesson you teach is supported with:

- lesson plan
- books
- audio/visual materials
- games and activities

and all the other resources you need to help make your lessons fun and successful for both you and your students.

The value of this support is almost beyond measure. Rather than starting from scratch and taking 3, 4, 5 hours or more prepare a 2-hour class, you will find that you can use the curriculum and materials to **prepare your class in as little as 15 minutes!** Sure, it may be very structured, but you can easily adapt the material and change the games and activities to suit your style, as long as the lesson goals are achieved.

Guaranteed Income

You get a contract that specifies a **guaranteed minimum number of hours** that you will work each week. This is based not on the Taiwan government's required minimum, but at a higher level **based on what we know you need to have a comfortable lifestyle in Taiwan.**

Be aware that living costs in Taiwan are lower than you might otherwise expect. To see this, you can explore the [Budget Calculator](#) on the Hess website, and get an idea of what your Taiwan lifestyle will be like.

So what are you waiting for?

Now is the best time to [apply](#) and get your Taiwan adventure started. Check out the [Hess website](#) to find out more!
