

# Volunteering & Internship Programs

## Our programs

Our students can apply for our internship programs at international companies based in Argentina in the working field they wish.

Thanks to Mundo Español's privileged business connections and the constant support of an academic counselor, our students have the opportunity to use their language skills in a real working environment and to acquire a significant working experience in another culture.

Students can also choose to combine Spanish classes with a volunteer position. This is a unique opportunity to experience another culture while making a real difference in other people's lives. Many social institutions and Non-Governmental Organizations will be more than happy to receive additional support for a few days, a few weeks or a few months.

That's what we call 'Learning by Living'!

## About Mundo Español

For more than a decade, Mundo Español has been offering Spanish Language Programs combined with specific cultural activities, internships, volunteer works and/or high-school/university studies to students, professionals, businesspeople or simply to those who would like to acquire proficiency in Spanish, and to learn more about Argentine and Latin American culture.

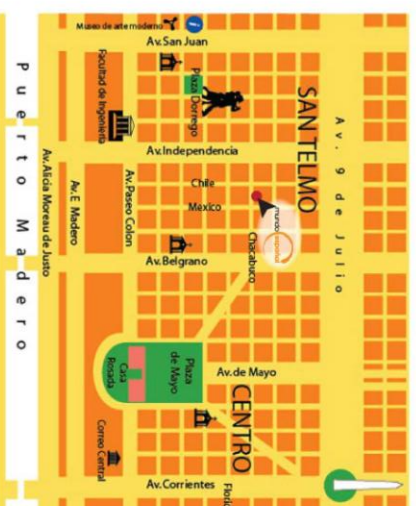

Mundo Español has the support of many national and international universities, as well as of the Argentine Ministry of Culture and Tourism and the Argentine Ministry of Foreign Affairs among others. Mundo Español has been declared of Cultural and Tourist Interest by the government of the Province of Córdoba. Mundo Español's director, Mariela Cristina Tort, is also Founder of the Argentine Association of Spanish-as-a-foreign-language Institutions (AACCELE).

## International dialogue

It's our vision that Latin America and Europe grow further together. That's why our objective is to strengthen the international dialogue by promoting the Spanish language throughout the world. We consider it highly important that the first step of approaching towards each other is to build up a common base. Without doubts this base must be seen in a shared language.

Therefore it's our responsibility in this process is to share our language expertise with people who share the same vision of a strong international dialogue.

Come and join us and see what it means to be part of the world!
