

Registration with Teachanywhere

We are the worlds largest recruitment firm specialising in the placement of qualified teachers into international schools and organisations.

We recruit only qualified/certified teachers from the following countries:

- United Kingdom
- USA
- Canada
- Ireland
- Australia
- New Zealand
- South Africa

Teachers must be fully trained to teach in state schools in one of these countries and possess full qualification/certification with teacher training such as a Bachelors or Masters of Education, PGCE, Higher Diploma in Education, etc. South African teachers with only a diploma of education will have very limited opportunities as most Ministries of Education require a Bachelors degree in Education, and do not like the word Diploma.

Please note that these are not jobs teaching English as a foreign language and therefore a TEFL certificate and/or non-educational Bachelors degree alone is not enough.

Due to the volume of applications, only successful candidates will be contacted but if you do not meet the above qualifications you will not be considered.

We will require

- A CV/Resume with complete work history from – to for each school (mm/yy – mm/yy), detailing your education and teacher qualification/certification
- An electronic photo

If we proceed with your application we will require

- Copies of your degree, teaching certificates
- Copy of your passport
- Reference details to cover the past 3+ years including school teaching referee details from your supervisors/principal/head teacher . We will contact your referees at the appropriate time with your permission
- A clear criminal record check

Please note that we reserve the right to verify your degree and teaching certificates and we do not accept degrees from online universities/diploma mills.

Visit our website at www.teachanywhere.com for more info and contact details, or send your CV directly to teacher@teachanywhere.com
